Re: Application for a Nonstandard Gas
Proration Unit to be Assigned to
Sinclair's State Lea 407 Well No. 2
in the Eumont Gas Pool, Lea County,
New Mexico

Gentlemen:

Please refer to subject application dated November 25, 1955;
it has come to our attention that the leasehold owner of Lot 7, Section
2-21S-35E, Lea County, New Mexico, is the Wilson Oil Company and not
the Tide Water Associated Oil Company as indicated in said application.

Please be advised that Sinclair is, this date, notifying the
Wilson Oil Company of our application by copy thereof via registered
mail.

Yours very truly,

J. T. Reeves

Re: Application for a Nonstandard
Gas Proration Unit to be
Assigned Sinclair's State Lea
407 Well No. 2 in the Eumont
Gas Pool, Lea County, New Mexico

Gentlemen:

Sinclair Oil & Gas Company wishes to make this application for an Administrative Order under Order R-520 which will establish a nonstandard gas proration unit of 117.71 acres in the Eumont Gas Pool to be assigned to subject well.

Subject well was staked 1980 feet from north and west lines of Section 2-21S-35E which locates it only 571.56 feet from south line and 660 feet from the east line of the proposed nonstandard unit due to the irregular lot sizes along north of said section 2. Sinclair requests approval of this nonstandard location.

Regarding the nonstandard proration unit, Sinclair wishes to state:

1. Sinclair is the operator of the State Lea 407 Well No. 2 which is located 571.56 feet from the south line and 660 feet from the east line of Lot 6, Section 2, T-21S R-35E, Lea County, New Mexico. This well was completed on October 5, 1955 in the Yates formation of the Eumont Gas Pool and tested at 5.9 MMCF/Day.
2. The nonstandard proration unit Sinclair seeks to have assigned to subject well consists of Lots 4, 5, and 6 of Section 2-21S-35E and contains 117.71 acres.
3. The proposed unit consists of contiguous lots.
4. The proposed unit lies wholly within a single Governmental section.
5. The entire unit may reasonably be presumed to be productive of gas.
6. The length or width of the proposed unit does not exceed 5280 feet.
7. All offset operators (listed below) as defined in Order R-520, have been advised of this application by copy thereof via registered mail.
8. The leasehold interests and the royalty interests are common under this proposed unit.

Sinclair believes that the granting of this application is in the interest of conservation and the protection of correlative rights. Sinclair, therefore, requests that an Administrative Order be issued for the purpose of granting this application.

Yours very truly,

J. T. Reeves
Division Superintendent
