RE: Request for Unorthodox Location Bell Lake Unit 21 Well 1340' FSL & 660' FWL Section 32-T22S-R34E Lea County, New Mexico

Dear Mr. Brooks:

Devon Energy Production Company, L. P. ("Devon"), as Operator, has recompleted the Bell Lake Unit 21 well in the Bone Springs formation. This gas well was originally drilled to a total depth of 13,500' at an orthodox surface location 1340' FSL & 660' FWL of Section 32-T22S-R34E, Lea Co., New Mexico. The well was completed in the Morrow formation and has been producing since January 2001.

The recompleted Undesignated NE Bell Lake-Delaware and Wildzat Bone Spring Pool is located closer than 330' from the SW/4 SW/4 line of Section 32-T22S-R34E, Lea County, New Mexico, being an unorthodox location from that permitted by the current Statewide Pool Rules. Therefore, Devon respectfully requests that the Commission administratively approve the enclosed Application for an Unorthodox Location in accordance with Division Rule 104(F)(3).

Notice of this application has been given to the affected contractual owners under the Bell Lake Unit covering the W/2 of Section 32-T22S-R34E, New Mexico, among other lands. A list of these owners is enclosed.

Also, enclosed for review are land plat reflecting the leasehold owners in the W/2 of Section 32-T22S-R34E, porosity and resistivity logs for the NE Bell Lake-Delaware and Wildcat Bone Spring intervals, and the State of New Mexico form C-102 for the previous completion.

Please contact me at (405) 228-8589 or at my email address above, if additional information is needed.

Yours very truly,

DEVON ENERGY PRODUCTION COMPANY, L. P.

**Brett Hudson**

From: Sent: To: Subject: Brooks, David K., EMNRD Tuesday, June 23, 2009 2:02 PM 'Hudson, Brett' RE: Bell Lake Unit Well No. 21; NSL Application

Dear Mr. Hudson

Thanks for your prompt response to my questions.

Unfortunately, your letter to affected interest owners does not comply with OCD Rule 15.13.D, because it does not notify them that they have 20 days to file objections with NMOCD. We will therefore require that new notices be sent, and will defer ruling on the application until 20 days after new notices are sent.

Sincerely

David K. Brooks Legal Examiner 505-476-3450

Mr. Brooks:

Attached is the notification letter that was sent to each offset owner in the Bone Spring and Delaware formations for the Bell Lake 21 NSL application. Devon does request a non standard location be approved for both the Bone Spring and Delaware for the Bell Lake 21.

Please let me know if you need any additional information.

Thanks,

Brett Hudson

Dear Mr. Hudson

I have two questions about this application.

First, I call your attention to the requirement of Rule 15.13.D [19.15.15.13.D NMAC] describing the notice that must be given to affected persons of an NSL application, and the contents of the proof of notice that is required. Your

application states that you gave notice to all owners in the W/2 of Section 32, but neither includes a copy of your notification, nor certifies that these owners were furnished a copy of your application and informed that they have 20 days to file objections with OCD. If a notice in this form was sent, please furnish us a copy of the notice letter. Otherwise, new notices will need to be sent.

Second, you have indicated that this well has been re-completed in the Bone Spring, but you also name a Delaware pool. Are you applying for NSL approval in both the Delaware and the Bone Spring, or only in the Bone Spring?

Sincerely

David K. Brooks Legal Examiner 505-476-3450
