Re: State "W" Lease,  
S/2 of SE/4 of Sec. 36,  
T-24-S, R-36-E,  
Lea County, New Mexico

Dear Mr. Porter:

We are in the process of recompleting the No. 1 State "W" well as a Yates producer in the Jalmat Gas Pool. Our No. 1 well is situated 660 feet from the south and east lines of Section 36. We recently acquired the Yates rights under the above land from Cities Service Oil Company, the former operator of the well. Our leasehold acreage for spacing unit purposes is composed solely of the above captioned 80 acre tract.

We enclose Waivers from the following surrounding operators showing that they have no objection to our non-standard 80 acre unit: Shell Oil Company, Continental Oil Company, Phillips Petroleum Company, and Millard Deck. Texaco, Inc. and Texas Pacific Oil Company have sent Waivers directly to you. Those two combined with the above listed companies comprise all of the off-setting operators together with all of the operators having acreage situated in Section 36.

If all Waivers are in order we would appreciate it if the Commission would issue us an Order approving our non-standard unit as our spacing unit for production of gas from the Yates formation in the Jalmat Gas Pool for our No. 1 State "W" Well.

Yours very truly,

BURLESON &amp; HUFF

Mr. A. L. Porter, Jr.  
Secretary-Director  
New Mexico Oil Conservation Commission  
P. O. Box 2088  
Santa Fe, New Mexico 87501

Dear Mr. Porter:

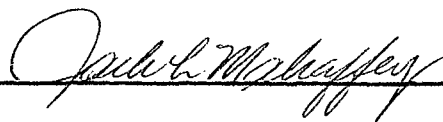

Burleson & Huff of Midland, Texas has notified us that they propose to re-enter a well to test the Yates formation at a depth of about 2800 feet located 660 feet from the south and east lines of Section 36, T-24-S, R-36-E, Lea County, New Mexico, and that they intend to make application to the Commission, if their well is a gas well, for approval by the Commission of the S/2 of SE/4 of said Section 36 as a non-standard spacing unit for the production of gas in the Jalmat Gas Pool.

This will certify that Shell Oil Company, as an off-set Operator or an Operator of a lease situated in said Section 36, hereby waives its right to object and has no objection to the proposed spacing unit for gas production from the Yates formation for the Burleson & Huff No. 1 State "W" Well.

Yours very truly,

SHELL OIL COMPANY

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

Burleson & Huff of Midland, Texas has notified us that they propose to re-enter a well to test the Yates formation at a depth of about 2800 feet located 660 feet from the south and east lines of Section 36, T-24-S, R-36-E, Lea County, New Mexico, and that they intend to make application to the Commission, if their well is a gas well, for approval by the Commission of the S/2 of SE/4 of said Section 36 as a non-standard spacing unit for the production of gas in the Jalmat Gas Pool.

Texaco Inc., as an offset Operator or an Operator of a lease situated in said Section 36, waives objection to the proposed spacing unit for gas production from the Yates formation for the Burleson & Huff No. 1 State "W" Well.

Yours very truly,

Darrell Smith
