Section 29 T23S R31E
Eddy County, New Mexico*

Dear Mr. Ezeanyim:

OXY USA Inc. respectfully requests administrative approval under Rule 104 (F) of this application for the subject non-standard well location on the Federal 29 #1. The #1 well is proposed in the Delaware with a TVD of 8300'. The non-standard location is necessary for reasons of topography, as required by the BLM.

The #1 encroaches on the east (B) 29-23S-31E, 40-acre spacing unit. All of the interest owners have joined in the drilling of the #1 and waivers have been attached.

To support this request, the following information has been submitted for your review:

1. Application for Permit to Drill.
2. NMOCD C-102 Plat for the proposed well with offsetting well and affected spacing units.
3. List of affected offset parties that adjoin the non-standard well and the spacing unit being encroached upon, along with a copy of the certified returned receipts and signed waivers. Copies of the signed certified receipts will be furnished upon request.

If you need any additional information, please call me at 432-685-5717.

Sincerely,

David Stewart
Sr. Regulatory Analyst

Dear Mr. Stewart:

Please see my email written a few minutes ago concerning the Federal 29 #5. It appears that the Federal 29 #2 location also encroaches toward the SW/4 SE/4 of Section 21, and the same requirement will apply as in the case of the #5.

Dear Mr. Stewart

Our interpretation is that, in the case of a diagonal encroachment, a proposed non-standard location encroaches if it is closer to the common corner than the nearest standard location. Since the nearest standard location to the common corner would be 330 feet from each unit boundary, it would be the square root of two time 330 feet squared, or 467 feet from the common corner.

Dear Mr. Brooks

I was going by 19.15.4.12.A(2)(c) where it talks about adjoining spacing units that are being encroached upon by the unorthodox location. So I calculated the distance from the proposed surface location and came up with well #1 being +/- 354' and #5 being +/- 376' from the spacing unit in the SW/4SE/4 of Sec 21. If this is not correct, please let me know and I will get with our land department to find out about that spacing unit. I appreciate the help.

Thanks,

Subject: Federal 29 #5 NSL Application

Dear Mr. Stewart

In addition to the encroachment toward the NW/4 NE/4 of Section 29, this proposed location also encroaches diagonally toward the SW/4 SE/4 of Section 21, to the northeast. See definition of "adjoining spacing unit. 19.15.2.7.A(5) NMAC.

According to NMOCD records, it seems that OXY is operator of the Delaware well in the SW/4 SE/4 of Section 21. However, if there are other working interest owners who own no interest in the proposed Federal 29 #5 well, or own a smaller interest in the well than there interest in the SW/4 SE/4 of Section 21, notice of this application to those working interest owners will be required.

Sincerely

David K. Brooks
