Administrative Order NSL-6096

**Re: Rosa Unit Well No. 181D
API No. 30-039-30795
1230 feet FNL and 730 feet FEL
Unit A, Section 15-31N-6W
Rio Arriba County, New Mexico**

Dear Ms. Riley:

Reference is made to the following:

- (a) your application (**administrative application reference No. pTGW09-27549477**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on October 2, 2009,
- (b) additional information furnished with your email of October 5, 2009, and
- (c) the Division's records pertinent to this request.

Williams Production Co., LLC [OGRID 120782] (Williams) has requested to drill the above-referenced well as a directional well from the surface location described in the caption of this letter to an unorthodox bottom hole location in the Mancos and Dakota formations, 100 feet from the South line and 1400 feet from the East line (Unit O) of Section 10, Township 31 North, Range 6 West, in Rio Arriba County, New Mexico. The E/2 of irregular Section 10 will be dedicated to this well in order to form a standard 320-acre, more or less, gas spacing unit in the Basin Mancos Gas Pool (97232) and in the Basin Dakota Gas Pool (71599). Spacing in the Basin Mancos Gas Pool is governed by the Special Rules for the Basin-Mancos Gas Pool, as promulgated in Order R-12984, issued on September 3, 2008, which provide for 320-acre units, with wells located at least 660 feet from a unit outer boundary. Spacing in the Basin Dakota Gas Pool is governed by Rules II.A and II.C of the Special Rules and Regulations for the Basin-

Dakota Gas Pool, as most recently amended by Order No. R-10987-B(2), which also generally provide for 320-acre units, with wells located at least 660 feet from a unit outer boundary.

This location is less than 660 feet from the southern unit boundary.

Your application has been duly filed under the provisions of Division Rules 15.13.C and 4.12.A(2).

It is our understanding that you are seeking this location for engineering reasons, in order to achieve optimal drainage of the reservoirs from this and existing wells.

It is also understood that notice of this application to offsetting operators or owners is unnecessary due to common ownership.

Pursuant to the authority conferred by Division Rule 15.13.B, the above-described unorthodox location is hereby approved.

This approval is subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 5.9.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark E. Fesmire', with a stylized flourish at the end.

Mark E. Fesmire, P.E.
