**Subject:** ICP approval for Rice EME Jct H-20 (1R427-236)

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has reviewed the submitted Investigation Characterization Plans (ICP), dated October 9, 2009, for the above-referenced site. The OCD hereby conditionally approves the following ICP for the Rice Operating Company (ROC) site:

Rice EME Jct H-20 submitted by Arcadis on 10/15/2009 #1R427-236

If a groundwater sample is collected, then ROC must analyzed the groundwater for chlorides and TDS (and BTEX if warranted).

Also, please be advised that OCD approval of this plan does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have questions regarding this matter, please contact me at 505-476-3489.

Edward J. Hansen  
Hydrologist  
Environmental Bureau

P.S.: Please use the OCD case # on future correspondence regarding the site listed above.
