Subject: RE: EME Jct. F-18 (1R 427-168) Extension

**RE: Request for Extension of the Corrective Action Plan (CAP) Implementation
for the Rice Operating Company's
EME Jct. F-18 Site (1R427-168)
Unit Letter F, Section 18, T20S, R37E, NMPM, Lea County, New Mexico**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has reviewed your request for extension of the implementation of the CAP for the above-referenced site (1R427-168). The OCD hereby approves the request for extension of the implementation until Monday, March 8, 2010.

Also, please be advised that OCD approval of this extension does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have questions regarding this matter, please contact me at 505-476-3489.

Subject: EME Jct. F-18 (1R 427-16) Extension

Mr. Hansen,

I am requesting an extension for the CAP work until the end of February, 2010. The reason for the extension is funding will be available in the month January, 2010. If you have any questions or concerns please contact me.

Thanks

Subject: Corrective Action Plan Approval (1R427-168) ROC EME Jct. F-18 Site

**RE: Corrective Action Plan (CAP) Approval
for the Rice Operating Company's
EME Jct. F-18 Site (1R427-168)
Unit Letter F, Section 18, T20S, R37E, NMPM, Lea County, New Mexico**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received the Investigation and Characterization Plan Report and Corrective Action Proposal (CAP) for the above-referenced site, dated October 21 2009, and has conducted a review of the plan. The CAP substantially meets the requirements of 19.15.29 NMAC. Therefore, the OCD hereby conditionally approves the CAP:

ROC must implement the CAP within 60 days.

ROC must blend soils (if necessary) on the northern and eastern portions of the liner installation at the 5 feet to 12 feet bgs interval to a chloride concentration of no more than 300 mg/Kg.

Please be advised that OCD approval of this CAP does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have any questions regarding this matter, please contact me at 505-476-3489.

Edward J. Hansen
Hydrologist
Environmental Bureau

P.S.: Please use the OCD case #1R427-168 in future correspondence.
