NATURE OF RELEASE

Type of Release: Crude oil, Produced water, and Natural Gas	Volume of Release: 75 barrels	Volume Recovered: 20 barrels
Source of Release: Pipeline	Date and Hour of Occurrence: not known	Date and Hour of Discovery: 9/4/09 at 8:00 am
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Jeffery Lecking at the NMOCD office Hobbs, NM	
By Whom? Rose Slade	Date and Hour: 9/4/09 at 9:15 am	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

The 16" natural gas gathering line operating at approximately 37 p.s.i. developed a leak. Repair crews arrived at the leak site with a vacuum truck and started recovering the fluid of mostly water and crude oil. The leak area was excavated and the 16" natural gas line was replaced with 120 feet of pipe. The landowner was immediately notified.

Describe Area Affected and Cleanup Action Taken.*

Approximately 10,500 sq. ft. of pasture land was affected by the leak. Final remediation will follow the NMOCD recommended guidelines for leaks and spills and the landowners specifications to not remediate the contaminated soil on site and to haul the contaminated soil to the SUG landfarm according to the permit requirements.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
