Mr. Carroll Neely
Box 912
Lovington, New Mexico 88260

Dear Sir:

Marathon Oil Company hereby waives objection to the unorthodox location and non standard proration unit for your Lone Star Federal Well No. 1 located in the NE/4 of Section 20, T-8-S, R-36-E, Roosevelt County, New Mexico.

It is understood that the subject well tested for 80 MCF gas and $1\frac{1}{2}$ barrels condensate per day from Morrow sand perforations.

Yours very truly,

MARATHON OIL COMPANY

D. E. Morris

District Operations Manager

Mr. R. C. Bott American Petrofina Company of Texas Box 1311 Big Spring, Texas 79720

Gentlemen:

I have recompleted the Lone Star Federal #1 well located in the Not of Section 20-8-36 Roosevelt Needy County, New Mexico, in the morrow sand.

The results of this completion were approximately 80 MCFPD and $1\frac{1}{2}$ Bbls. condensate. Since these results were not significant to warrant a gas unit of 320 acre spacing, I will need a waiver on this spacing to apply for a standard producing unit of 40 acres.

If you have no objection to this unorthodox spacing, please sign this letter and return.

Your immediate attention to this will be appreciated.

Sincerely,

Carroll Neely

Mr. Joe Ramey
Cil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico 87501

Dear Mr. Ramey:

I have recently recompleted my Lone Star Federal #1 located in section 20-T8S-R36E in Roosevelt County, New Mexico

My completion report results showed the well was capable of producing only 100 MCF per day and 3 bbls. of oil.

Since the well is not capable of producing as a prorated unit for 320 acre spacing. I would like to request an allowable for an unorthodox 40 acre producing unit.

Please let me know if there is anything else you need in order to issue an authorization to produce this well.

Very truly yours,

Varial Duly

Carroll Neely Operator-Owner
