NATURE OF RELEASE

Type of Release Hydrocarbon/Produced Water	Volume of Release 80	Volume Recovered 70
Source of Release Gasket on Firetube	11/29/09 730am	11/29/09 730am
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Larry Johnson	
By Whom? Natalie Gladden	Date and Hour 11/30/09 715am	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

WATER @ 28'

Describe Cause of Problem and Remedial Action Taken.*

Gasket on firetube broke releasing a mixture of hydrocarbon and produced water. Contamination spread out inside the containment walls, west of battery and sprayed a large area southwest of battery. 70bbls of total fluid was recovered.

Describe Area Affected and Cleanup Action Taken.*

Landowner requested that the pasture area be scrapped up and replaced with fresh topsoil. A local gang will excavate the contaminated soil from inside the containment walls, and remainder of location will be remediated to meet NMOCD guidelines to closure.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
