I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Operator,

The New Mexico Oil Conservation Division District 2 Office (OCD) is in receipt of an initial report Form C-141 reporting a release of produced fluids at or near the above referenced well site. The release reportedly occurred on or about 1/6/2010. Please submit a corrective action work plan proposal (plan) for remediation, removal and/or clean up of contaminants that may be present at this site. The plan is to be formulated based on vertical and horizontal delineation of contamination, site ranking, and OCD rules, regulations and guidelines.

A publication is available to you on the OCD website to aid in formulation of this plan. The publication may be found as follows:

<http://www.emnrd.state.nm.us/ocd>

Click on each of the following items as they appear:

- Publications
- Environmental Handbook
- Miscellaneous Guidelines
- Remediation of Leaks, Spills and Releases

Please submit this plan to the OCD District 2 Office not later than 3/11/2010. Please include any remedial or clean up actions that may have been already performed.

Clean up/remediation requirements may be subject to other federal, state, local laws and/or regulations.

Sincerely,

Mike Bratcher
