UNIT D, SECTION 16, T-20-5, R-37-E

OIL CONSERVATION DIVISION

SYNTA FE

EUMONT GAS POOL

LEA COUNTY, NEW MEXICO

#### Gentlemen:

Mobil Producing TX. & N.M. Inc. is applying for an unorthodox location and a non-standard gas proration unit for the recently completed General G Well No. 2. The well was drilled as an Undesignated Blinebry oil well which tested non-commercial. The well was then plugged back and successfully completed in the Queen zone and was then assigned to the Eumont Gas Pool which requires 640 acres for a proration unit. The entire General G lease consists of only 40 acres. The Eumont Gas Pool requires a minimum distance of 660' from the outer boundary of the proration unit requiring an exception for an unorthodox location.

All offset operators have been notified by copy of this letter. Those notices have been sent by certified mail. Certification proof and an Offset Operator list is attached.

State of New Mexico April 25, 1985 Page 2

The Blinebry zone was perforated and tested during November and December, 1984. The Paddock zone was tested during January 1985. The Queen zone was tested and potentialled on March 22, 1985. The well is currently shut in because of a need for a gas gathering line.

If additional information is needed please call collect to Lorraine Maroney at (915) 688-1773.

Yours very truly,

G. E. Tate MSH.

Env. & Reg. Manager

UNORTHODOX LOCATION AND NON-STANDARD PRORATION UNIT GENERAL G STATE WELL NO. 2 SECTION 16, T-20-S, R-27-E EUMONT GAS POOL LEA COUNTY, NEW MEXICO

Dear Dave,

Per our conversation on May 28, 1985, and further to Mobil's letter dated April 26, 1985, all operators in Section 16 have been notified of the subject application. Notices were sent by certified mail on May 30, 1985. Attached is a copy of the letter of notification, a copy of the letter to Mr. Sexton and an operator list.

Thank you for your cooperation in this application. If additional information is needed, please call Lorraine Maroney at (915) 688-1773, collect.

Yours very truly,

VERBAL APPROVAL FOR GAS SALES COMMENCEMENT UNORTHODOX LOCATION AND NON-STANDARD PRORATION UNIT (APPROVAL PENDING) GENERAL G STATE WELL NO. 2 SECTION 16, T-20-S, R-37-E EUMONT GAS POOL LEA COUNTY, NEW MEXICO

#### Gentlemen:

Mobil Producing TX. & N.M. Inc. has applied for an unorthodox location and a non-standard proration unit for the recently completed General G State Well No. 2. The well was drilled as an Undesignated Blinebry oil well which tested non-commercial. The well was then plugged back and successfully completed in the Queen Zone. The well was placed in the Eumont Gas Pool which requires 640 acres for a proration unit. Mobil's lease consists of only 40 acres so a non-standard proration unit exception is necessary. Field rules require a minimum distance of 660' from the outer boundary of the proration unit creating an unorthodox location.

Verbal permission to produce the subject well was granted by Mr. Jerry Sexton, New Mexico Oil Commission, on May 28, 1985, pending approval of this application.

If additional information is needed, please call Lorraine Maroney at (915) 688-1773.

Yours very truly,

G. E. Tate

Dear Mr. Sexton:

Per our telephone conversation on May 28, 1985, whereby you gave verbal permission to commence gas sales on the General G State Well No. 2, attached, is a copy of the letter to all operators in Section 16. The subject operators have been notified by certified mail of this application.

Offset Operators, only, were notified of the subject application on May 5, 1985. Attached is a copy of that letter and of the letter of exception request to the NMOCC at Santa Fe.

Thank you for your approval of the verbal request. If additional information is needed please call Lorraine Maroney at (915) 688-1773, collect.

Yours very truly,

G. E. Tate
