I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

RE: Fulfer Oil & Cattle Co.
Muse #1
Remediation

Mr. Johnson:

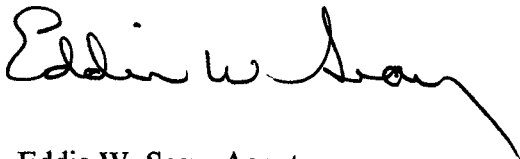

As requested by BLM on the attached notice, Fulfer Oil is filing a "Workplan" for remediation of the above listed site.

No recent leaks or spills were identified by Fulfer, but there is an extensive area of historic hardened asphaltting material, both on and off the location.

Find attached work plan and associated information.

Should you need anything further, please call.

Sincerely,

A handwritten signature in black ink, appearing to read "Eddie W. Seay". The signature is fluid and cursive, with a long, sweeping underline that extends to the right.

Eddie W. Seay, Agent
Eddie Seay Consulting

cc: Fulfer Oil & Cattle Co.

WORKPLAN

General:

Fulfer took operation of the property in 2000 and have not had any reportable leaks. The histories hardened material was here when Fulfer took over.

Groundwater:

According to the water information from State Engineer, the groundwater occurs at approximately 275 ft.

Remediation Proposal:

Fulfer's proposal would be to remove the hardened asphaltting material and dispose at an OCD approved facility. After removal, sample soil and remediate as OCD guidelines requires. After contamination has been removed and remediate, put clean soil back and seed with #2 seed as required.

Ranking Criteria Score: 10

With the deep groundwater and the location of spill, it will have a 5000 ppm TPH cleanup and will cleanup chloride per OCD direction.

Remarks

The location has had numerous oil spills, both historical and recent. All contaminants are to be removed per NMOC standards. Submit a plan for the delineation of the entire location both vertical and horizontal. Once cleaned to those standards, backfill with similar soils, contour to blend with the surrounding landscape, rip and reseed with seed mixture #2. Contact Jim Amos @ 575-234-5909 if any questions

When the Written Order is complied with, sign this notice and return to above address.

Warning

The Authorized Officer has authority to issue a Written Order in accordance with 43 CFR 3161.2. Written Order correction and reporting time frames begin upon receipt of this Notice or 7 business days after the date it is mailed, whichever is earlier. Each stipulation must be corrected within the prescribed time from receipt of this Notice and reported to the Bureau of Land Management Office at the address shown above. If you do not comply as noted above under "Corrective Action to be Completed By", you shall be issued an Incident of Noncompliance (INC) in accordance with 43 CFR 3163.1(a). Failure to comply with the INC may result in assessments as outlined in 43 CFR 3163.1 and may also incur civil penalties (43 CFR 3163.2). All self-certified corrections must be postmarked no later than the next business day after the prescribed time frame for correction.

Section 109(d)(1) of the Federal Oil and Gas Royalty Management Act of 1982, as implemented by the applicable provisions of the operating regulations at Title 43 CFR 3163.2(f)(1), provides that any person who "knowingly or willfully" prepares, maintains, or submits false, inaccurate, or misleading reports, notices, affidavits, records, data, or other written information required by this part shall be liable for a civil penalty of up to \$25,000 per violation for each day such violation continues, not to exceed a maximum of 20 days.

Review and Appeal Rights

A person contesting a decision shall request a State Director review of the Written Order. This request must be filed within 20 working days of receipt of the Notice with the appropriate State Director (see 43 CFR 3165.3). The State Director review decision may be appealed to the Interior Board of Land Appeals, 801 North Quincy Street, Suite 300, Arlington, VA 22203 (see 43 CFR 3165.4). Contact the above listed Bureau of Land Management office for further information.
