NATURE OF RELEASE

Type of Release	Produced Water	Volume of Release	251bbls	Volume Recovered	250bbls
Source of Release	Water Tank	Date and Hour of Occurrence	03/26/2010	Date and Hour of Discovery	03/26/2010 8:00 a.m.
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Larry Johnson - OCD Geoffrey Leking - OCD		
By Whom?	Josh Russo	Date and Hour	03/29/2010	8:34 a.m.	
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

The cause of this problem was due to an alarm system failure. The alarm system has been repaired.

Describe Area Affected and Cleanup Action Taken.*

251 bbls of produced water was initially release and completely contained inside the dike walls of the tank battery. The entire tank battery is lined with 40 mil plastic. A vacuum truck was called and was able to recover 250 bbls of produced water. The contaminated gravel has been removed.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
