Application for Non-Standard Well Location  
E E Elliott A Well No. 1C  
S/2 Section 15-T30N-R09W  
Blanco Mesaverde Pool  
San Juan County, New Mexico

**RECEIVED**  
JAN 13 2004  
Oil Conservation Division  
1220 S. St. Francis Drive  
Santa Fe, NM 87505

BP America Production Company respectfully requests an administrative approval for a non-standard well location for the E E Elliott A Well No. 1C to be drilled at a location of 2125' FSL and 945' FEL of Section 15, T30N-R09W. The non-standard location is necessitated by topographical and archeological conditions and would insure the conservation of surface and subsurface resources in the area.

To aid in your review attached is a C-102, Well Location Plat, indicating the proposed well location and the existing Mesaverde wells in the BP operated 320 acre unit in the S/2 and the wells operated by Burlington Resources in the N/2 of section 15. Also attached is a topographical map and a 9-section plat showing the offset wells and operators.

Burlington Resources, offset operator in the N/2 of Section 15 is being notified of this application via certified mail return receipt requested.

Your attention to this matter is greatly appreciated. Should you have any questions concerning this application please do not hesitate to call me at 281-366-4491.

Sincerely,

A handwritten signature in black ink, appearing to read "Mary Corley".

Mary Corley
