Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has reviewed your request for extension of the submittal of the remediation summary for the above-referenced site (1R-420). The OCD hereby approves the request for extension of the submittal until Wednesday, December 22, 2010.

Also, please be advised that OCD approval of this extension does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received Plains' Soil Closure Proposal for the above-referenced site (dated, April 2008). The workplan, submitted in partial fulfillment of 19.15.29 NMAC (Part 29, formally, Rule 116), indicates that Plains has partially met the requirements of 19.15.29 NMAC for this site. Therefore, the OCD hereby conditionally approves the Soil Closure Proposal for the Texaco Skelly "F" Release Site.

1. Plains shall submit to the OCD a remediation summary within 90 days.

Please be advised that OCD approval of this workplan does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.
