PUBLIC NOTIFICATION PROOF

Mr. Hansen:

In accordance with Part 30 (Section 19.15.30.15 NMAC) Public Notice requirements, please accept the enclosed copies of proof that the appropriate individuals and entities were notified of the Stage 1 and 2 Abatement Plan submitted by Tetra Tech for the Justis E-1 vent (AP-99) site on October 14, 2008. In an e-mail dated April 13, 2010, the Oil Conservation Division (OCD) notified Rice Operating Company (ROC) that the Stage 1 and 2 Abatement Plan was deemed administratively complete and directed ROC to proceed with public notice.

Notices were sent via certified mail and email to landowners within the prescribed radius and return receipts and delivery/read receipts were received for landowners indicated in the attached spreadsheet. Mailings were also sent to the Lea County Commission and the list of Interested Parties found on the OCD website. Thirty-two total notifications were sent, one could not be confirmed via certified mail. Twenty-five individuals on the interested parties list were notified via e-mail to the address provided on the list. Of the twenty-five email notifications, eleven read receipts were received, eleven delivery receipts were received, two could not be confirmed, and one did not reach the intended recipient.

As directed by OCD, the Stage 1 and 2 Abatement Plan notifications were published in the *Albuquerque Journal* beginning on April 19, 2010 and ending April 21, 2010 and the *Hobbs News-Sun* beginning on April 17, 2010 and ending May 1, 2010. Affidavits for these publications are enclosed.

ROC requests that OCD consider public notice complete for this abatement plan. Should you have any further questions regarding this request, do not hesitate to contact me. Thank you for your consideration.

ROC is the service provider (agent) for the Justis SWD System and has no ownership of any portion of the pipeline, well, or facility. The System is owned by a consortium of oil producers, System Parties, who provide all operating capital on a percentage ownership/usage basis.
