Describe Cause of Problem and Remedial Action Taken *

A pipeline leak was discovered in the North Peterson field that released approximately 5 bbls. of oil. The leak was isolated and repaired; a vacuum truck was used to recover fluid.

Describe Area Affected and Cleanup Action Taken.*

Affected area was contained within our pipeline right of way. Vacuum truck was used to recover fluid. Contaminated soil will be removed and taken to an OCD approved land farm. Area will be cleaned and sampled to ensure compliance with the OCD guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
