Re: Application for Administrative Approval of Unorthodox Location  
XTO Energy Inc.'s Tiger No. 4  
543' FSL and 685' FEL, Section 33, T30N, R13W  
San Juan County, New Mexico  
Basin Fruitland Coal Formation

Dear Mr. Brooks:

XTO Energy Inc. hereby requests administrative approval for an unorthodox location for the above referenced well. Attached for your reference are the following exhibits:

1. Well location plat (NMOCD Form C-102)
2. Topographic map
3. Ownership map
4. Production map showing Pictured Cliffs, Dakota and Fruitland Coal Gas Production

The Tiger #4 was drilled and completed in March 1998 to test the Pictured Cliffs Formation, spaced as a 160 acre SE/4 unit. The well was drilled at the unorthodox location because it was found to be at a more favorable geologic position within the Pictured Cliffs formation than a well drilled at a location considered to be standard. The Unorthodox well location was approved on February 10, 1998 by the New Mexico Oil Conservation Division

*L 3941*  
XTO Energy Inc. plans to complete the Basin Fruitland Coal Formation in the Tiger No. 4. XTO Energy Inc. is the offset operator of the Farmington #2 in of the target formation located in Section 4, T29N-R13W (API # 30-045-30814) so no notification letters have been sent out.

XTO Energy Inc. requests administrative approval for an unorthodox Basin Fruitland Coal well to be located 543 FSL & 685 FEL of Section 33, T30N-R13W. Should you need any additional information, please contact me at (817) 885-3156.

Yours truly,

  
Bradley M. Jameson

VIA U.S. CERTIFIED MAIL

Mr. Ben Malone  
Burlington Resources Oil and Gas Company LP  
3401 E. 30<sup>th</sup> St.  
Farmington, NM 87402

Re: Application for Administrative Approval of Unorthodox Location  
XTO Energy Inc.'s Tiger No. 4  
543' FSL and 685' FEL, Section 33, T30N, R13W  
San Juan County, New Mexico  
Basin Fruitland Coal Formation

Dear Mr. Malone:

Enclosed is a copy of an Application for Administrative Approval of Unorthodox Location for the Tiger #4 Well that has been sent to the New Mexico Oil Conservation Commission for administrative approval. If Burlington Resources objects, you must file your objection with the New Mexico Oil Conservation Commission within 20 days, as required by the OCD rule 15.13.D (19.15.15.13D NMAC). If you have no objection to the proposed non-standard location, please so indicate by signing and returning one copy of this letter to me at the address on shown at the bottom of this letter.

The Tiger #4 was drilled and completed in March 1998 to test the Pictured Cliffs Formation, spaced as a 160 acre SE/4 unit. The well was drilled at the unorthodox location because it was found to be at a more favorable geologic position within the Pictured Cliffs formation than a well drilled at a location considered to be standard. The Unorthodox well location was approved on February 10, 1998 by the New Mexico Oil Conservation Division

Should you have any questions or need more information, please contact me at (817) 885-3156. Your prompt interesting attention to this matter will be very much appreciated.

Yours truly,

  
Bradley Jameson  
Landman

Re: Application for Administrative Approval of Unorthodox Location  
XTO Energy Inc.'s Tiger No. 4  
543' FSL and 685' FEL, Section 33, T30N, R13W  
San Juan County, New Mexico  
Basin Fruitland Coal Formation

Dear Mr. Brooks:

XTO Energy Inc. hereby requests administrative approval for an unorthodox location for the above referenced well. Attached for your reference are the following exhibits:

1. Well location plat (NMOCD Form C-102)
2. Topographic map
3. Ownership map
4. Production map showing Pictured Cliffs, Dakota and Fruitland Coal Gas Production

The Tiger #4 was drilled and completed in March 1998 to test the Pictured Cliffs Formation, spaced as a 160 acre SE/4 unit. The well was drilled at the unorthodox location because it was found to be at a more favorable geologic position within the Pictured Cliffs formation than a well drilled at a location considered to be standard. The Unorthodox well location was approved on February 10, 1998 by the New Mexico Oil Conservation Division

XTO Energy Inc. plans to complete the Basin Fruitland Coal Formation in the Tiger No. 4. XTO Energy Inc. is the offset operator of the Farmington #2 in of the target formation located in Section 4, T29N-R13W (API # 30-045-30814) so no notification letters have been sent out.

XTO Energy Inc. requests administrative approval for an unorthodox Basin Fruitland Coal well to be located 543 FSL & 685 FEL of Section 33, T30N-R13W. Should you need any additional information, please contact me at (817) 885-3156.

Dear Mr. Brooks -

XTO Energy operates the Northridge #3 (API # 30-045-33793) located in the NW corner of Section 3 T29N-R13W. I believe this well is space N2. (Please see attached C-102 form from NMOCW web site). Let me know if there is anything else you need.

Thanks,

Subject RE: XTO Energy Inc.'s Tiger #4 NSL Application

Dear Md. Jameson

I have reviewed the referenced application. It seems that the proposed location encroaches diagonally toward Section 3. This is so because the diagonal distance from the well location to the NW corner of Section 3 is less than the distance from that corner to the nearest standard well location in Section 33.

OCD records indicate that XTO has a Fruitland well in the NE/4 of Section 3, but it is dedicated to an E/2 spacing unit, so there is apparently not a Fruitland well on the W/2 of Section 3, and therefore no designated offset operator for that unit. Please furnish ownership information for the W/2 of Section 3, and if it is not XTO acreage, then furnish proof of notice.

Sincerely

David K. Brooks  
Legal Examiner
