Describe Cause of Problem and Remedial Action Taken.*

A 3 in PVC pipeline cracked. The damaged section of pipe was replaced as a permanent repair.

Describe Area Affected and Cleanup Action Taken.*

10,655 sq ft was affected, 6,480 sq ft of which was pasture and 4,175 ft was roadway. A vacuum truck was immediately dispatched to collect and properly dispose all standing water. The impacted pasture was scraped to a depth of 8-12 in and approximately 144 yards of soil were hauled to the NMOCD approved disposal facility Sundance.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations
