Re: FulcherKutz- Pictured
Gas Pool
Denman Knauff 1-C
31-28-10

Gentlemen:

I request your approval for a non-standard gas proration unit for the above well.

This well has assigned to it the Northwest Quarter of Section 31-T 28 N - R 10 W.

Under Commission Order No. R-565, Rule 6(b) Revised;

2. The non-standard gas proration unit consists of contiguous quarter section and the 164.87 acres assigned to this well is due to a variation in legal subdivision of the U.S. Public Land Surveys.

If necessary for me to send in additional information, will you please advise?

Yours very truly,

Frank M. Denman, Jr.

Mr. Frank M. Denman, Jr.
P. O. Box 1826
Wichita Falls, Texas

Dear Sir:

Reference is made to your letter of April 5, 1955, regarding the classification of your Denman-Knauff Well No. 1, located in unit C of Section 31, Township 28 North, Range 10 West, San Juan County, New Mexico.

This is to advise you that the NW/4 of Section 31 which is dedicated to your Denman-Knauff Well No. 1, contains 164.87 acres as indicated by the plat of the United States Surveyor General's Office for Township 28 North, Range 10 West.

Order R-565 limits a standard gas proration unit from 158 to 162 acres. Therefore, if your application for approval of a non-standard gas proration unit for your Denman-Knauff Well No. 1 is not received by May 1, 1955, said well will be removed the gas proration schedule.

Very truly yours,

C. M. Rieder
District Engineer

Gentlemen:

In answer to your letter of March 30 concerning the above well.

The above well is the only well in the NW Quarter of Section 31 and has 162.47 acres assigned to it. I do not understand why the well has been classified as a non-standard unit.

Will you please advise?

Yours very truly,

Frank M. Denman, Jr.
