Re: Request for Approval of Non-Standard Gas Proration Unit for "S" Well 3-1

Attention: Mr. A. L. Porter

*P.C.*

Gentlemen:

In accordance with Order No. R-565-C, Rule 6 (B), request is made for administrative approval of a non-standard gas proration unit for Northwest Production Corporation "S" Well 3-1, which is located in the SE/4 of the NE/4 of Section 1, Township 24 North, Range 4 West, Rio Arriba County, New Mexico.

The proposed non-standard unit for "S" 3-1 consists of the NE/4 of Said Section 1, including undesignated lots contiguous to the NE/4, a total of 220 acres. The unorthodox size of the proposed unit is caused by a variation in the legal subdivision of the United States Public Land Survey, and it lies within a single governmental section, all of which is subject to an oil and gas lease in favor of Northwest Production Corporation. It is reasonable to presume that all of the non-standard unit is productive of gas.
