**Bill Richardson**  
Governor

**Jim Noel**  
Cabinet Secretary

**Karen W. Garcia**  
Deputy Cabinet Secretary

**Mark Fesmire**  
Division Director  
Oil Conservation Division

August 30, 2010

Mr. Brian Collins  
Marbob Energy Corp  
PO Box 227  
Artesia, NM 88211-0227

**Re: Administrative Order SWD-1194**

SRO 17 SWD Well No. 1 (API 30-015-24462)  
660 FSL, 660 FWL, Unit M, Sec 17, T26S, R28E, NMPM, Eddy County  
Injection into the Delaware Mountain Group, Depths: 2961 to 5800

You have submitted a request on behalf of Marbob Energy Corp., for an extension of this disposal permit beyond the one year deadline to commence injection for the reasons outlined in the attached correspondence.

The Division finds that granting this request to extend this injection permit is in the interest of conservation and will prevent waste and protect the environment.

All requirements of the above referenced injection permit and agreements in the application remain in full force and effect. Please note per Division rules, change of operator for injection and SWD wells is not automatic and should be approved through Compliance and Enforcement of the Santa Fe office.

The deadline to commence injection is hereby extended until March 29, 2011.

MARK E. FESMIRE, P.E.  
Acting Director

Cc: Oil Conservation Division – Artesia,  
File: SWD-1194

Will:

We finally received management approval to do the captioned reentries and conversions to Delaware SWD wells. The approval letters are dated 16 Sept 09 and 29 Sept 09 respectively. We are waiting on our dirt contractor to build locations on these two wells. We plan to start as soon as locations are ready, but don't know the exact date yet. Would it be possible to get a 3 or 6 month extension on the C-108's to give us time to get these wells reentered and ready for SWD? There is no change in the offset operators and no need to re-advertise these wells. Thanks.

Brian Collins
