If not, have all working, royalty and overriding royalty interest owners been notified by certified mail?      Yes ☒ No ☐  
Are all produced fluids from all commingled zones compatible with each other?      Yes ☒ No ☐  
Will commingling decrease the value of production?      Yes ☐ No ☒  
If this well is on, or communitized with, state or federal lands, has either the Commissioner of Public Lands or the United States Bureau of Land Management been notified in writing of this application?      Yes ☒ No ☐  
NMOCD Reference Case No. applicable to this well: \_\_\_\_\_

Attachments:  
C-102 for each zone to be commingled showing its spacing unit and acreage dedication.  
Production curve for each zone for at least one year. (If not available, attach explanation.)  
For zones with no production history, estimated production rates and supporting data.  
Data to support allocation method or formula.  
Notification list of working, royalty and overriding royalty interests for uncommon interest cases.  
Any additional statements, data or documents required to support commingling.

PRE-APPROVED POOLS

If application is to establish Pre-Approved Pools, the following additional information will be required:

List of other orders approving downhole commingling within the proposed Pre-Approved Pools  
List of all operators within the proposed Pre-Approved Pools  
Proof that all operators within the proposed Pre-Approved Pools were provided notice of this application.  
Bottomhole pressure data.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

San Juan 28-6 Unit 117N  
Unit J, Section 10, T28N, R06W

The San Juan 28-6 Unit 117N is a Blanco Mesaverde, Basin Dakota and Basin Mancos New Drill. A cased hole neutron log will be run prior to completion to identify the Mesaverde, Dakota and Mancos zones. If the Mesaverde, Dakota and Mancos horizons can be isolated, a separator test will be performed and the allocation will be assigned with results using the subtraction method applied to the rate. In the event that the Mesaverde, Dakota and Mancos can not be tested separately, a volumetric calculation will be performed to determine the allocation percentages between the Basin Mesaverde, Basin Dakota and Basin Mancos. All documentation will be submitted to the Aztec NMOCD office.

**To:** 'Bill.N.Akwari@conocophillips.com'  
**Subject:** San Juan 28-6 Unit #117N; DHC application

Dear Mr. Akwari

On this application you have indicated that ownership of the zones to be commingled is not identical, and that notice of the application has been sent to the owners.

In such cases Rule 12.11.C(2)(f) requires "a statement attesting that applicant sent notice to the interest owners in the spacing unit by certified mail, return receipt requested . . . and no objection was received within 20 days of sending this notice." The statement checked on the Form C-107-A is not sufficiently explicit to comply with this provision.

Please furnish us a statement regarding notice substantially in the form of the referenced rule, identifying the date when the notices were sent, and attaching a list of the names and addresses of person noticed.

Sincerely

David K. Brooks  
Legal Examiner

**Attachments:** SJ 28-6 Unit 117N - DHC labels.xls; 28-6 117N notification names.pdf

Hi David,

We were not aware that the certification was required on the DHC (C107As), but from here on out we can supply it when we submit the form to you. I have attached the list of ~250 names where the notification was sent out on 7/23/10 and then I filled out a certification note stating that these notices were sent. We did not receive any objections in the required 20 day waiting period.

If you need anything else, please let me know. Again, I will change our procedures for submitting the C107As so that in the future we have the certification attached. Thanks for your help. Patsy Clugston 326-9518.

**Subject:** San Juan 28-6 Unit #117N; DHC application

Dear Mr. Akwari

On this application you have indicated that ownership of the zones to be commingled is not identical, and that notice of the application has been sent to the owners.

In such cases Rule 12.11.C(2)(f) requires "a statement attesting that applicant sent notice to the interest owners in the spacing unit by certified mail, return receipt requested . . . and no objection was received within 20 days of sending this notice." The statement checked on the Form C-107-A is not sufficiently explicit to comply with this provision.

Please furnish us a statement regarding notice substantially in the form of the referenced rule, identifying the date when the notices were sent, and attaching a list of the names and addresses of person noticed.

Sincerely

David K. Brooks  
Legal Examiner

Subject: Mesquite SWD, Inc. Kaiser State #44, Section 13, T21S, R34E, Lea County, New Mexico

***Today in the mail, Penroc Oil Corporation received application for conversion to SWD for the captioned well. Penroc's initial look indicates a disposal well with high volumes (part of the application), may have detrimental effect on its well (Corner Pocket) in offsetting section 14. Even though the Corner Pocket is currently an Atoka producer, it may have oil and gas potential in the Yates 7 Rivers.***

***Therefore Penroc will be opposed to a SWD well in the immediate area of its producing well and associated acreage. Thank you.***

Oil Conservation Division:

I hereby certify that the Working, Royalty and Overriding Royalty Interest Owners were sent notification by certified mail of our application for administrative approval for Downhole commingling the Blanco Mesaverde, Basin Mancos and Basin Dakota zones on the subject well.

Attached is the list of approx. 250 interest owners that were sent notification on July 23, 2010.

A handwritten signature in cursive script, reading "Patsy Clugston". The signature is written in dark ink and is positioned above the printed name and title.

Patsy Clugston

Sr. Regulatory Specialist
