Re: Application of Mike Abraham for an
Exception to Rule 5 (A) of Order R-
1670 for Administrative Approval of
a Non-Standard Gas Proration Unit in
the Tapacito Pool, Rio Arriba County,
New Mexico.

Dear Mr. Porter:

Pursuant to Rule 5 (B) of Order R-1670, Mike Abraham submits his application, in triplicate, for an exception to Rule 5 (A) of Order R-1670 and administrative approval of a non-standard gas proration unit consisting of Lots 1 and 2 and SE/4 NE/4, SW/4 NE/4, of Section 6, Township 25 North, Range 3 West, N.M.P.M., Rio Arriba County, New Mexico.

In support of this application, Applicant respectfully states and shows the following:

1. The well to which this non-standard gas proration unit will be dedicated is the Harold A. Yaffee #1, located seven hundred and ninety feet (790') from the east line and seven hundred and ninety feet (790') from the north line of Section 6.

2. Applicant owns all the acreage within the section on which the non-standard unit is located, as indicated on Exhibit "A" attached hereto. The only offsetting acreage is owned by Southern Union Gas Company and they have been furnished with a copy of this application with a request that their consent in the form of a waiver of notice and hearing be forwarded to the commission.

3. The non-standard unit consists of contiguous quarter-quarter sections or lots.

4. The non-standard gas proration unit contains 195.43 acres and its unorthodox size and shape is due to a variation of the legal subdivision of the United States Public Land Survey.

Mr. A. L. Porter, Jr.

-2-

February 13, 1963

Applicant respectfully requests that this application be promptly considered and that approval be administratively granted pursuant to Rule 5 (B) of Order R-1670 for the non-standard unit above described.

Yours very truly,

Mike Abraham
