November 2, 1964

Mr. A. L. Porter, Jr.
Secretary-Director
New Mexico Oil Conservation Commission
P.O. Box 871
Santa Fe, New Mexico

Dear Mr. Porter:

Beta Development Co. is preparing to drill the Potter Canyon No. 1 well in Section 7, T. 29-N., R. 10-W., located 1450' FNL and 2480' FEL.

We propose to dedicate the North 313.20 acres to the well. The shortage of acreage in the proration unit is due to a variation in the legal subdivision of the U. S. Public Land Survey.

Beta Development Co. hereby requests administrative approval for a non-standard proration unit covering the above mentioned N/2 of the section in accordance with the Basin Dakota Gas Pool Order No. R-1670-C.

If this request meets with your approval, please forward a Commission order to us at 234 Petroleum Club Plaza Building, Farmington, New Mexico.

Yours very truly,

BETA DEVELOPMENT CO.

John T. Hampton
