Re: Non-Standard Pictured Cliff Units
T. 24 N., R. 4 W.
Rio Arriba County, New Mexico

Gentlemen:

I enclose herewith well location plats of two (2) Pictured Cliff wells, both containing less than the required 160 acres for a standard Pictured Cliff unit. As you will note, the size of each unit is due to the actual land survey in this area.

This shall be your formal notice that these wells are to be drilled and completed in the Pictured Cliff formation and that the pro-ration allocation allotted by the New Mexico Oil and Gas Commission will be based on the actual acreage factor, as shown on each location plat.

We would appreciate your acknowledging receipt of the enclosed plats, and further appreciate your waiver of consent as to our non-standard Pictured Cliff units. Should you be in agreement with these facts kindly acknowledge same by signing in the space provided below, returning the original of this letter for our files.

Very truly yours,

Richard S. Hunt

Re: Non-Standard Pictured Cliffs Units
#3 Jicarilla-Abel & #5 Jicarilla-Abel
Rio Arriba County, New Mexico

Dear Sir:

I enclose herewith copies of well location and acreage dedication plats which have been filed with your Aztec office.

Inasmuch as each of these units is less than the required acreage for a standard Pictured Cliff unit, we would appreciate your advising this office as to the proper procedure to obtain approval of these units.

You will note from the plats that the reason these units are non-standard is because of the variation of the legal subdivisions.

Very truly yours,

Richard S. Hunt
