Gentlemen:

Tenneco Oil Company is operator of the Florance #24, producing in the Blanco Mesaverde Field. We propose to deepen this well and dually complete it as a Mesaverde - Dakota producer.

The acreage dedicated to this well is the E/2 of Section 23, T. 29 N., R. 9 W., San Juan County. As a result of a re-survey of this township, Section 23 was found to be irregular in size and the E/2 contains 296.5 acres.

Tenneco requests approval of the non-standard proration unit for both zones of this well.

Yours very truly,

TENNECO OIL COMPANY

Attention: Mr. Robert E. Siverson

Gentlemen:

Reference is made to your request, dated July 1, 1966, for approval of a 296.5-acre non-standard gas proration unit in the Blanco-Mesaverde and Basin-Dakota Gas Pools consisting of the E/2 of Section 23, Township 29 North, Range 9 West, NMPM, San Juan County, New Mexico, to be dedicated to your Florance Well No. 24.

In order to obtain administrative approval for your request, it will be necessary for you to either present written consent in the form of waivers from all offset operators, or furnish proof of the fact that they were notified by registered mail of your application. If the latter course is chosen, the Commission will wait 30 days and, if no objection is received, will then approve your application.

We will hold your application in abeyance until you have furnished written consent from the offset operators or proof of the fact that they have been notified.

Very truly yours,

GEORGE M. HATCH  
Attorney
