Dear Mr. Porter:

This request for administrative approval of a non-standard proration unit for the above-referred-to well is being presented on behalf of the operator, Manning Gas and Oil Company. This request is being presented in accordance with the procedure set forth in Order R-4314.

The subject well is located 500 feet from the North Line, 744' from the East line of Section 2-T24N-R4W, Rio Arriba County, New Mexico. See attached Well Location and Acreage Dedication Plat.

Due to the configuration of Section 2 and the location of the subject well it would be impossible to establish a 160-acre proration unit without having to exclude a portion of the Northeast Quarter of the section which is a legal subdivision.

Therefore, it is requested that the 222<sup>±</sup> included in the Northeast Quarter of Section 2-T24N-R4W be approved as a Non-Standard Proration Unit for the above-referred-to well.

Copies of this request are being sent to the offset operators, as indicated on attached map, by Certified Mail.

Thank you for your cooperation and consideration in this matter.

Very truly yours,

Ewell N. Walsh, P. E.  
President
