Devon Energy Production Co., LLP respectfully requests permission for Off-Lease Gas Measurement & Sales for the Rifleman 5 #4. Produced gas flows through a Gas Unit Stack Pack before going through Devon Check Meter on location and this is metered at an Enterprise CDP Sales Meter #68659 that is located just north of the Rifleman 5 #4 well in Section 32-T21S-26E, Eddy County, New Mexico. No other wells are connected to the gas line and reported gas volumes are the CDP sales meter volumes. These volumes are compared against the check meter volumes. The Off Lease Gas Measurement & Sales is due to the Operator installed gathering systems. Waste is not induced and no correlative rights are impaired.

The working interest, royalty interest and overriding royalty interest owners are not identical; parties have been notified via certified mail (see attached).

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
