Devon Energy Production Co., LLP respectfully requests permission for Off-Lease Gas Measurement & Sales for Serrano 29 Federal 1. Produced gas will flow the Gas Production Unit and then through a check meter that Devon will install at the Serrano location before metering at a DCP CDP Sales Meter located approximately 2 miles to the NW located in Section 18, T24S, R27E. No other wells are connected to the gas line and reported gas volumes will be the CDP sales meter volumes. These volumes will be compared against the check meter volumes.

DLM-36

The Off-Lease Measurement & Sales is due to the Operator installed gathering systems. Waste is not induced and no correlative rights are impaired.

The working interest, royalty interest and overriding royalty interest owners in the lease are uniformed; no additional notification is required.

The DCP Meter Number is not available at this time, once the Meter Number is obtained it will be provided to BLM under separate cover.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOC guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
