If YES, Volume Impacting the Watercourse.					

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
 A plastic flow line ruptured releasing produced water. Vacuum trucks were used to recover free fluid.

Describe Area Affected and Cleanup Action Taken.*
 10 BBLS of fluid was recovered. A remediation plan was submitted to and approved by M. Bratcher of the NMOCD. Soil removal was conducted and disposed of at an NMOCD-approved disposal facility. The site was backfilled and closed.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: Chesapeake BCR Fed. #1 - initial C-141

Mike,

On behalf of Chesapeake, I am reporting a spill on the BCR Fed. #1. I have attached an initial C-141 signed by Bradley Blevins. This occurred today, Oct. 29, 2009 at 7:00 a.m. I will be in contact with you to discuss this spill.

Thanks, Cliff
