RECEIVED
FEB 11 2011
NMOCD ARTESIA

Describe Cause of Problem and Remedial Action Taken.*

Frozen poly flow line ruptured. Line repaired accomplished same day.

Describe Area Affected and Cleanup Action Taken.*

Downhill flow path approximately 400' x 6'. 2 bbs recovered same day as release. Talon/LPE on site for initial sampling 2/9/11, notification to NMOCD and C-141 submitted 2/9/11. Remedial action work plan will be generated based on laboratory analytical results.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mr. Bratcher,

Attached please find the Initial C-141 for the Legacy-South Red Lake Unit No.1 release that occurred yesterday. We are rushing the sample analysis and will get back to you promptly regarding a work plan for your approval. We will deliver the original C-141 Form to your office tomorrow. Please do not hesitate to contact us if you have any questions. Thank you.

Respectfully,

David J. Adkins
