## Release Notification and Corrective Action

NKMW 1101259064

## OPERATOR

☒ Initial Report ☐ Final Report

Name of Company	COG Operating, LLC	Contact	Pat Ellis
Address	550 W. Texas, Suite 100 Midland, TX 79701	Telephone No.	432-230-0077
Facility Name	High Lonesome Penrose Unit Tank Battery	Facility Type	Tank Battery
Surface Owner	Federal	Mineral Owner	
		Lease No. (API#)	30-015-02728

## LOCATION OF RELEASE

Unit Letter	Section	Township	Range	Feet from the	North/South Line	Feet from the	East/West Line	County
G	15	16S	29E	1980	NORTH	1980	EAST	EDDY

Latitude 32.923067 Longitude 104.058967

## NATURE OF RELEASE

Type of Release	Produced Water	Volume of Release	20bbls	Volume Recovered	90bbls
Source of Release	Water Tank	Date and Hour of Occurrence	02/02/2010	Date and Hour of Discovery	02/02/2010 8:30 a.m.
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?		Date and Hour			
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

There was a hole in the bottom of a water tank. The water tank was immediately removed and replaced with a new one.

Describe Area Affected and Cleanup Action Taken.\*

The area surrounding the water tank was saturated with 20bbls of produced water that had been released from the water tank, and standing rain water. A vacuum truck recovered 90 bbls of water because of the amount of rain water at the facility. One-call protocol will be made by dirt contractor who will then remove saturated soils prior to soil sampling by Tetra Tech. Tetra Tech will then sample spill site area to delineate any possible contamination from the release and we will present a remediation work plan to the NMOCD/BLM for your approval prior to any significant remediation work.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
