Describe Area Affected and Cleanup Action Taken.\*  
Area affected went across the location into an arroyo, through a culvert, under the road and into the pasture. Area on location will be delineated, and a clean-up plan will be submitted for approval. Oxy request to wash the affected area in the pasture, apply fertilizer and bugs, and monitor for re-growth.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
