**RE: 2010 Annual Groundwater Monitoring Report for the Plains Marketing's  
C. S. Cayler Release Site (AP-52)  
Unit Letter B, Section 6, T17S, R37E, NMPM, Lea County, New Mexico  
Recommendations Approval**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received the 2010 Annual Groundwater Monitoring Report for the C. S. Cayler Release Site, dated March, 2011, and has conducted a review of the recommendations. The proposed activities indicate that Plains Marketing (Plains) has met the requirements of 19.15.30 NMAC (Rule 30; formerly, Rule 19) for an abatement plan. Therefore, the OCD hereby approves the recommendations as proposed for above-referenced site in accordance with 19.15.30 NMAC.

Please be advised that OCD approval of these recommendations does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have any questions regarding this matter, please contact me at 505-476-3489.

**RE: Quarterly (Third – 2011) Report for the Plains Marketing’s  
C. S. Cayler Release Site (AP-52)  
Unit Letter B, Section 6, T17S, R37E, NMPM, Lea County, New Mexico  
Recommended Remediation Activities Approval**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received the Quarterly Report for the C. S. Cayler Release Site, dated November 16, 2011, and has conducted a review of the recommended remediation activities. The proposed activities indicate that Plains Marketing (Plains) has met the requirements of 19.15.30 NMAC (Rule 30; formerly, Rule 19) for an abatement plan. Therefore, the OCD hereby approves the recommended remediation activities as proposed for above-referenced site in accordance with 19.15.30 NMAC:

Please be advised that OCD approval of these recommended remediation activities does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

**RE: Second Quarter 2011 Summary for the Plains Marketing's  
C. S. Cayler Release Site (AP-52)  
Unit Letter M, Section 6, T17S, R37E, NMPM, Lea County, New Mexico  
Proposed Recommendations Approval**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received the Second Quarter 2011 Summary for the C. S. Cayler Release Site, dated August 10, 2011, and has conducted a review of the recommendations. The proposed recommendations indicate that Plains Marketing (Plains) has met the requirements of 19.15.30 NMAC (Part 30; formerly, Rule 19) for an abatement plan. Therefore, the OCD hereby conditionally approves the recommendations as proposed for above-referenced site in accordance with 19.15.30 NMAC:

Plains must submit for approval to the OCD an amendment to the groundwater monitoring plan prior to plugging monitoring well, MW-9.

Please be advised that OCD approval of these recommendations does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have any questions regarding this matter, please contact me at 505-476-3489.

**RE: 2011 Field Activity Report for the Plains Marketing's  
C. S. Cayler Release Site (AP-52)  
Unit Letter M, Section 6, T17S, R37E, NMPM, Lea County, New Mexico  
Recommended Remediation Activities Approval**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received the 2011 Field Activity Report: Monitor Well Plugging and Installation for the C. S. Cayler Release Site, dated June 21, 2011, and has conducted a review of the recommended remediation activities. The proposed activities indicate that Plains Marketing (Plains) has met the requirements of 19.15.30 NMAC (Part 30; formerly, Rule 19) for an abatement plan. Therefore, the OCD hereby conditionally approves the recommended remediation activities as proposed for above-referenced site in accordance with 19.15.30 NMAC:

Plains must submit to the OCD a report of the specified recommended remediation activities within 120 days.

Please be advised that OCD approval of these recommended remediation activities does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

**RE: Groundwater Monitoring Wells Replacement Request for the Plains Marketing's  
C. S. Cayler Release Site (AP-52)  
Unit Letter B, Section 6, T17S, R37E, NMPM, Lea County, New Mexico  
Groundwater Monitoring Wells Replacement Approval**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received Plains Marketing's (Plains) request to replace two groundwater monitoring wells (MW-7 and MW-8) at the above-referenced site (dated March 14, 2011). The OCD hereby conditionally approves the request to replace the groundwater monitoring wells at the C. S. Cayler Release Site:

Plains must use material to plug the groundwater monitoring wells (MW-7 and MW-8) at the site of a cement grout with 1% to 3% bentonite or other material approved by the OCD. Please submit to the OCD a final installation (MW-7A and MW-8A) and plugging (MW-7 and MW-8) report within 90 days of receipt of this notice.

Please be advised that OCD approval of this request does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have any questions regarding this matter, please contact me at 505-476-3489.

**Subject:** Modification to Groundwater Remediation System @ Plains' CS Cayler site (AP-052)

Ed,

Plains respectfully requests NMOCD authorization to replace 2 monitor wells (MW-7 and MW-8) at the above referenced site. Monitor wells MW-7 and MW-8 are currently dry due to a regional decline in the depth to groundwater. The replacement monitor wells (MW-7A and MW-8A) will be installed as close as practicable to the monitor wells that they are replacing. Once the replacement monitor wells are installed, they will be utilized as part of the ongoing groundwater remediation effort that is being conducted at the site.

Please let me know if you have any questions or need additional information.

Thank you,  
Jason Henry
