Dear Ms Starkey:

Reference is made to the following:

(a) your application (**administrative application reference No. pTGW11-06257793**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on March 3, 2011, and

(b) the Division's records pertinent to this request.

Burnett Oil Co., Inc. (Burnett) [OGRID 3080] has requested to drill the above-referenced well at an unorthodox well location, as described above in the caption of this letter. The NW/4 SW/4 of Section 14 will be dedicated to this well in order to form a standard 40-acre oil spacing unit in the Loco Hills Glorieta-Yeso Pool (96718). This pool is governed by statewide Rule 15.9, which provides for 40-acre units, with wells located at least 330 feet from a unit outer boundary. This location is less than 330 feet from the northern and eastern unit boundaries.

Your application has been duly filed under the provisions of Division Rules 15.13 and 4.12.A(2).

It is our understanding that you are seeking this location because of sand dunes.

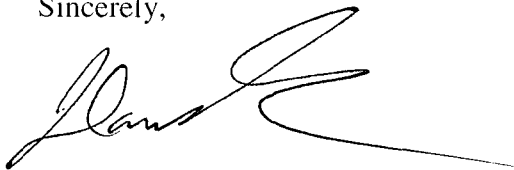

It is also understood that you have given due notice of this application to all operators or owners who are "affected persons," as defined in Rule 4.12.A(2), in all adjoining units towards which the proposed location encroaches.

Pursuant to the authority conferred by Division Rule 15.13.B, the above-described unorthodox location is hereby approved.

This approval is subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 5.9.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Daniel Sanchez', with a long, sweeping horizontal line extending to the right.
