If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

Casinghead failed and released well fluid at surface. Replaced wellhead and plumbed into battery. Picked up all contaminated soil and put on plastic and bermed around it. Took soil samples to have tested.

Describe Area Affected and Cleanup Action Taken.*

Spill was contained to location and road. Picked up all contaminated soil and dug up around wellhead and piled all soil on plastic and took soil samples.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
