P	8	17S	31E					Eddy

Latitude N32.8470 Longitude W103.8916 (Release Site)

NATURE OF RELEASE

Type of Release Produced Water/Hydrocarbons	Volume of Release Unknown	Volume Recovered Unknown
Source of Release Flow Line	Date and Hour of Occurrence Unknown	Date and Hour of Discovery Feb 11
Was Immediate Notice Given? <input type="checkbox"/> Yes X No <input type="checkbox"/> Not Required	If YES, To Whom? N/A	
By Whom? N/A	Date and Hour N/A	
Was a Watercourse Reached? <input type="checkbox"/> Yes X No	If YES, Volume Impacting the Watercourse. N/A	
If a Watercourse was Impacted, Describe Fully.* N/A		
Describe Cause of Problem and Remedial Action Taken.* The release is a result of a flow line failure during freezing weather and is located approximately .5 miles west of the well. This release caused an "overspray" of fluid into the pasture on two sides of the lease road (north and south). The affected area on the north side of the road is approximately 150' x 150' and the south side is approximately 30' x 100'. Delineation will be conducted and the results used to formulate a work plan for submission to NM OCD and BLM for review and approval.		
Describe Area Affected and Cleanup Action Taken.*		

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
