Describe Cause of Problem and Remedial Action Taken.*

The flow line located west of the Artesia Unit No. 32 was found to be leaking. The line was shut-in, excavated and repaired. The impacted soil was excavated and transported to and NMOCD solid waste disposal facility.

Describe Area Affected and Cleanup Action Taken.*

The release was located on the pipeline right away west of the Artesia Unit No. 32. The area affected was located on the flow line right away and the lease road running north of the injection line. Talon/LPE has been contracted for the construction of a work plan and the correction of the impacted area.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
