## ***ADMINISTRATIVE ORDER DHC-3252***

Energen Resources Corporation  
2198 Bloomfield Hwy  
Farmington, New Mexico 87401

Attention: Charlie Donahue

*Carson Well No. 5  
API No. 30-039-26133  
Unit B, Section 30, Township 30 North, Range 4 West, NMPM,  
Rio Arriba County, New Mexico  
East Blanco-Pictured Cliffs (Gas 72400), and  
Blanco-Mesaverde (Prorated Gas 72319) Pools*

Dear Mr. Donahue:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above described well to commingle production from the subject pools in the well bore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the zones is hereby placed in abeyance.

The maximum daily gas and oil produced from each pool in this well shall be determined using Division Rules and Regulations.

The applicant shall consult with the supervisor of the Aztec District Office of the Division upon completion and testing of the well in order to determine a fixed allocation of production from each of the commingled zones. Upon approval by the Division's Aztec District Office, the applicant shall submit the allocation formula to the Santa Fe Office of the Division.

REMARKS: The operator shall notify the Aztec District Office of the Division upon implementation of commingling operations.

Pursuant to Rule 303.C.(2), the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 4th day of March 2004.
