RE: Surface Commingle Leases

To Whom It May Concern:

Mewbourne Oil Co is requesting permission to surface commingle the following well:

Quick Draw 22 DE # 1H (API # 30-015-38474)

Mewbourne Oil Co request permission to produce this well to a tank battery on our Quick Draw 22 D # 1 (API # 30-015-37377) with our Quick Draw 22 D # 1.

The reason for which Mewbourne Oil Co is requesting this off lease measurement is to save approximately \$150,000 in facilities cost as well as additional surface disturbances.

Mewbourne Oil Co will allocate production based upon well test.

Submit the original application to the Santa Fe office with one copy to the appropriate District Office.

**APPLICATION FOR SURFACE COMMINGLING (DIVERSE OWNERSHIP)**

OPERATOR NAME: Mewbourne Oil Company

OPERATOR ADDRESS: PO Box 5270, Hobbs, NM 88241

APPLICATION TYPE:

Pool Commingling  Lease Commingling  Pool and Lease Commingling  Off-Lease Storage and Measurement (Only if not Surface Commingled)

LEASE TYPE:  Fee  State  Federal

Is this an Amendment to existing Order?  Yes  No If "Yes", please include the appropriate Order No. \_\_\_\_\_

Have the Bureau of Land Management (BLM) and State Land office (SLO) been notified in writing of the proposed commingling  Yes  No

Fee surface & minerals

**(A) POOL COMMINGLING**  
Please attach sheets with the following information

(1) Pool Names and Codes	Gravities / BTU of Non-Commingled Production	Calculated Gravities / BTU of Commingled Production		Calculated Value of Commingled Production	Volumes

(2) Are any wells producing at top allowables?  Yes  No

(3) Has all interest owners been notified by certified mail of the proposed commingling?  Yes  No.

(4) Measurement type:  Metering  Other (Specify)

(5) Will commingling decrease the value of production?  Yes  No If "yes", describe why commingling should be approved

**(B) LEASE COMMINGLING**  
Please attach sheets with the following information

(1) Pool Name and Code. Cemetery Yeso 11795  
 (2) Is all production from same source of supply?  Yes  No  
 (3) Has all interest owners been notified by certified mail of the proposed commingling?  Yes  No  
 (4) Measurement type:  Metering  Other (Specify)

**(C) POOL and LEASE COMMINGLING**  
Please attach sheets with the following information

(1) Complete Sections A and E.

**(D) OFF-LEASE STORAGE and MEASUREMENT**  
Please attached sheets with the following information

(1) Is all production from same source of supply?  Yes  No  
 (2) Include proof of notice to all interest owners.

**(E) ADDITIONAL INFORMATION (for all application types)**  
Please attach sheets with the following information

(1) A schematic diagram of facility, including legal location.  
 (2) A plat with lease boundaries showing all well and facility locations. Include lease numbers if Federal or State lands are involved.  
 (3) Lease Names, Lease and Well Numbers, and API Numbers.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

## **Testing Procedure**

This production facility is equipped with a testing header. At the header produced fluids (oil, water, and gas) enter the production facility. (Header is seen in picture #1).

At the header produced fluids may be sent to the testing vessel or the production vessel. Only one well will be sent to the testing vessel at a given time. The other wells that flow to this battery will be sent to the production vessel. The testing vessel is a 3 phase separator (seen in picture # 2) that will meter all phases prior to it commingling with other producing wells. The oil will flow thru the oil dump and pass thru an oil meter and be recorded. The water will pass thru the water dump and thru a water meter and be recorded. The gas will flow out the top of the separator and then thru a gas test meter and then be commingled with gas from the other wells at the production meter. Once the fluids leave the 3 phase separator and pass thru the meters the volume of oil, water, and gas has been determined.

All wells will be tested for a period of no less than 3 days per month to achieve the most accurate test information. In this case where there are only 3 wells being tested at this battery so each well will have approximately 10 – (24 hr well test) each month. Well test information is recorded in our auditable production system by the name of eVIN. Wells will be rotated in test and then into the production separators throughout there producing lives.

Allocation of oil, water, and gas production in a testing facility is very simple. At the end of the month the battery made a given amount of oil, water, and gas and all wells that flow to that battery have been tested. The well test will be used to determine each wells contribution to the entire batteries production and from that each well will get its percent of oil, water, and gas produced.

Gentlemen:

Mewbourne Oil Company (Mewbourne) has filed an application with the New Mexico Oil Conservation Division (Division) seeking authorization to surface commingle production from the North Seven Rivers; Glorieta-Yeso Pool originating from the Quick Draw "22" D No. 1 and the Quick Draw "22" DE No. 1H wells located on Fee Leases, which comprise the W/2NW/4 of Section 22, T20S, R25E, Eddy County, New Mexico. All production from these wells is to be stored in the Quick Draw "22" D Tank Battery, located in the NW/4NW/4 of said Section 22. Mewbourne will use well test in order to accurately determine each wells production. If you object to the application, you must notify the Division in writing no later than 20 days from the date of this letter (the Division's address is 1220 South St. Francis Drive, Santa Fe, New Mexico 87505). Failure to object will preclude you from contesting this matter later.

Should you have any questions regarding the above, please email me at [cmitchell@mewbourne.com](mailto:cmitchell@mewbourne.com) or call me at (432) 682-3715.

Sincerely,

MEWBOURNE OIL COMPANY

Corey Mitchell

195' FNL & 420' FWL (SL)  
2310' FNL & 420' FWL (BHL)  
Section 22, T20S, R25E  
Eddy County, New Mexico

Gentlemen:

Mewbourne Oil Company (Mewbourne) has filed an application with the New Mexico Oil Conservation Division (Division) seeking authorization to surface commingle production from the North Seven Rivers; Glorieta-Yeso Pool originating from the Quick Draw "22" D No. 1 and the Quick Draw "22" DE No. 1H wells located on Fee Leases, which comprise the W/2NW/4 of Section 22, T20S, R25E, Eddy County, New Mexico. All production from these wells is to be stored in the Quick Draw "22" D Tank Battery, located in the NW/4NW/4 of said Section 22. Mewbourne will use well test in order to accurately determine each wells production. If you object to the application, you must notify the Division in writing no later than 20 days from the date of this letter (the Division's address is 1220 South St. Francis Drive, Santa Fe, New Mexico 87505). Failure to object will preclude you from contesting this matter later.

Should you have any questions regarding the above, please email me at [cmitchell@mewbourne.com](mailto:cmitchell@mewbourne.com) or call me at (432) 682-3715.

Sincerely,

MEWBOURNE OIL COMPANY

Corey Mitchell
