**Subject:** Plugging Report Approval - (1R-91) Plains South Mattix Sump Release Site

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has reviewed the groundwater monitoring well plugging report, dated June 6, 2008 for the above-referenced site. The OCD hereby approves the report as fulfillment of the Remediation Plan, 1R-91.

Also, please be advised that OCD approval of this report does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have questions regarding this matter, please contact me at 505-476-3489.

Edward J. Hansen  
Hydrologist

**Subject:** Final site closure of Plains South Mattix Sump Site

Ed,

Pursuant to our conversation on January 28, 2009, Plains respectfully requests an email correspondence from you concurring with final closure of the South Mattix Sump Release Site (1R-0091). Plains received NMOCD authorization to implement final site closure activities during 2008. These activities were documented in a report (*Completion of Final Closure Activities: Plugging and Abandonment of Monitoring Wells*) submitted by Conestoga-Rovers, on behalf of Plains, during June 2008.

Please contact me if you have any questions or need additional information.

Thank you,  
Jason Henry
