Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received the Corrective Action Plan Report for the EME Jct K-8-1 Site, dated December 16, 2011 and has conducted a review of the Report, including the proposed CAP Addendum. The Addendum indicates that Rice Operating Company (ROC) has met the requirements of 19.15.29 NMAC (Rule 29; formerly, Rule 116) for a remediation plan. Therefore, the OCD hereby conditionally approves the Corrective Action Plan Addendum as proposed for above-referenced site in accordance with 19.15.29 NMAC:

ROC must submit to the OCD a report of the corrective actions within 180 days.

Please be advised that OCD approval of this addendum does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.
