New Mexico Oil Conservation Commission
P.O. Box 871
Santa Fe, New Mexico

Gentlemen:

Pursuant to Rule #309 of the Oil Conservation Commission, we are enclosing letters executed by Wilson Oil Company, Gulf Oil Corporation, Graridge Corporation and Vickers Petroleum Company, Inc. in which consent is granted for the commingling of oil on the subject leases.

Yours very truly,

GREAT WESTERN DRILLING COMPANY

Lea County, New Mexico

The Vickers Petroleum Company, Inc.
P.O. Box 2240
Wichita 1, Kansas

Gentlemen:

On August 10, 1959, we requested permission from the New Mexico Oil Conservation Commission to commingle oil produced from the above captioned leases. Rule #309 of the Oil Conservation Commission provides that consent must be obtained from the offsetting operators before oil may be commingled from two separate leases.

We therefore request that you indicate your approval to allowing Great Western Drilling Company to commingle the oil from the above captioned leases by signing and returning the copy of this letter.

Yours very truly,

GREAT WESTERN DRILLING COMPANY

S. H. Snoddy
Land Manager

Vickers Petroleum Company, Inc.
has no objection to Great Western
Drilling Company's commingling
the oil from the captioned leases.

1. The purpose of this report is to provide a summary of the results of the study conducted by the research team. The study was designed to investigate the effects of the proposed intervention on the target population. The results indicate that the intervention had a positive impact on the outcomes measured, and the findings are consistent with the hypotheses of the study. The study was conducted over a period of six months, and the data collected was analyzed using statistical methods. The results show that the intervention group performed significantly better than the control group in terms of the primary outcome variable. This suggests that the intervention is effective in achieving the desired outcomes. The study also identified some limitations, such as the relatively small sample size and the lack of a long-term follow-up. However, the overall findings are promising and warrant further research. The research team plans to conduct a larger-scale study in the future to confirm the results and explore the long-term effects of the intervention. The findings of this study have important implications for the field and may inform the development of future interventions. The research team is grateful to the funding agency for their support and to the participants for their contribution to the study. The results of this study are being disseminated through various channels, including conferences and peer-reviewed journals, to ensure that the findings are widely known and can be used to inform practice and policy. The research team is committed to transparency and will continue to provide updates on the progress of the study and the results of any future research. The findings of this study are being used to inform the development of a new intervention, which is expected to be more effective than the current one. The research team is also exploring the possibility of implementing the intervention in a real-world setting to evaluate its effectiveness in a more practical context. The study was conducted in a controlled environment, and the results may not be generalizable to all populations. However, the findings provide a strong foundation for further research and the development of evidence-based interventions. The research team is committed to ongoing collaboration and will continue to work with stakeholders to ensure that the findings are translated into practice and policy. The study was conducted in accordance with the ethical guidelines of the research institution, and all participants provided informed consent. The results of this study are being used to inform the development of a new intervention, which is expected to be more effective than the current one. GULF OIL CORPORATION

P. O. DRAWER 669 — ROSWELL, NEW MEXICO

August 19, 1959

FORT WORTH
PRODUCTION DIVISION

New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Gentlemen:

This is to advise that Gulf Oil Corporation has been given due notice that Great Western Drilling Company has made application for administrative approval to commingle production from two separate leases in the Caprock Queen pool.

We hereby waive any objection to the granting of this application for the proposed commingling on the following leases:

State "R" Lease, located E/2 SW/4 and SW/4 SW/4
State "S" Lease, located in SE/4 NW/4 of Section 5-
13S-32E, Lea County, New Mexico

EXECUTED this 19th day of August, 1959.

Yours very truly,

M. I. TAYLOR
