Administrative Order CTB-143

Gentlemen:

Reference is made to your application dated March 24, 1965, for administrative approval of an exception to Rule 309-A of the Commission Rules and Regulations to permit the commingling of oil and gas produced from the Drinkard Pool from your W. L. Nix Well No. 1 located in Unit C of Section 20 and your W. L. Nix Well No. 2 located in Unit N of Section 17, both in Township 22 South, Range 38 East, Lea County, New Mexico, after separately metering the production from each well. It is our understanding that the ownership of the two wells is not common throughout, Gordon M. Cone owning a part interest in Well No. 2.

Under the authority granted me pursuant to Rule 309-B, you are hereby authorized to commingle the above-described production as proposed, subject to the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," including the requirement for temperature-compensated positive displacement meters with non-reset counters and fluid samplers. You are also requested to notify the Hobbs District Office of the Commission at such time as this installation is complete in order that a field inspection may be made of the installation prior to putting it in use.

Very truly yours,
