RE: Commingling of Production  
Lusk Strawn Pool  
Administrative Order CTB-145

Gentlemen:

Regarding our letter of August 23, 1974, pertaining to the commingling of production from the Jones Federal and Jones Federal "C" leases, we are installing a meter on the Jones Federal lease of the same type as installed for the Jones Federal "C" lease to be in complete compliance with the referenced administrative order.

Yours very truly,

TENNECO OIL COMPANY

RE: Commingling of Production  
Lusk Strawn Pool  
Administrative Order CTB-145

Gentlemen:

Pursuant to Administrative Order CTB-145, and with your further approval, we are commingling oil production from the Jones Federal Lease and the Jones Federal "C" Lease in the Lusk Strawn Pool, Eddy County, New Mexico.

Production from the Jones Federal "C" Lease is being metered with a proven meter equipped with a non-reset counter. Pipeline runs are being made from storage tanks serving the Jones Federal Lease with production being allocated to the Jones Federal "C" Lease based upon meter readings since it is water free.

It is further requested that subsequent to your approval that Texas-New Mexico Pipeline be notified so that they may run oil from the Jones Federal Lease with a volume equivalent to the allowable for the Jones Federal and Jones Federal "C" Leases each month.

Yours very truly,

TENNECO OIL COMPANY
