Subject: Application for Exception

to Rule 309-B

New Mexico Oil Conservation Commission Post Office Box 2088 Santa Fe, New Mexico 87501

cor II in a se

Gentlemen:

Shell Oil Company hereby makes application for administrative approval to commingle before marketing production from the Hodges-Federal (S/2, Section 23 and S/2, Section 24, T-8-S, R-30-E) and the Hodges-Federal "C" (SW/4, Section 22, T-8-S, R-30-E) leases, Cato Field, Chaves County, New Mexico.

We propose to commingle without separately metering the production from each lease, as both leases are filed under State No. NM-3519 and royalty interests are common throughout. Allocation of production from each well and each lease will be based on monthly well tests.

All wells produce from the same zone with similar gravities; therefore, no change in the commercial value of the production is anticipated.

Attached for your consideration are a lease plat, schematic diagram of the proposed installation, and letters from all parties owning an interest in the leases and the purchaser of the production consenting to the proposed commingling. If additional information is required, please contact this office.

Yours very truly,

// **!:** '

Shell Oil Company P.O. Box 1509 Midland, Texas 79701

Attention: Mr. J. E. R. Sheeler

#### Gentlemen:

Your application of August 30, 1967, to the Bureau of Land Management, Santa Fe, New Mexico requesting approval to commingle production on Federal leasehold New Mexico 022636 has been referred to this office.

Your application advises that Shell has designated various portions of lease New Mexico 022636 as the Hodge-Federal, Hodge-Federal A, B, and C and you are requesting approval to commingle San Andres production from these portions of the leasehold. Although Shell has given the lease separate designations, it still remains one Federal lease and approval to commingle production from a single formation on one Federal leasehold is not required.

This office has no objection to commingling San Andres Production from the portions of leasehold New Mexico 022636 Shell has designated as the Hodge-Federal and Hodge-Federal A, B, and C.

Sincerely yours,

BILLY J. SHOGER

Mr. Emmett D. White (Blanche White) P. O. Box 146 Roswell, New Mexico 88201

Dear Mr. White:

Shell Oil Company proposes to commingle production from the subject leases into a common tank battery. All of the leases are filed under State No. N.M. 3519 and U.S.G.S. Serial No. N.M. 022636 with common royalty interests throughout. The leases have been given separate designations within Shell Oil Company for convenience in well nomenclature.

All wells produce from the same pool with similar gravities; therefore, no change in the commercial value of the production is anticipated.

In order to support Shell's application to the New Mexico Oil Conservation Commission for approval to commingle this production, we would appreciate your indicating your approval in the space provided below and returning two copies to this office.

Yours very truly,

Reference: Hodges Fed. and Hodges Fed. "C" Leases

Cato (San Andres) Field, Chaves Co., N.M.

Gentlemen:

We understand that you plan to propose to commingle production from the two referenced leases into common tankage. Scurlock 0il Company is the purchaser of production from these leases and wish to advise you that we have no objections to purchasing oil from the commingled storage. If we can assist you in any way, please let us know.

Very truly yours,

SCURLOCK OIL COMPANY
