Gentlemen:

Union Oil Company of California as operator of the Federal "E" and Federal "F" Leases, numbers NM-0560352 and LC-062085, Shugart Pool, ~~Lee~~ County, respectfully request permission to commingle the production from these two leases.

We have received permission from the USGS and the ORR owner to commingle this production and have enclosed their letter permits. We respectfully request that the requirement to separately measure production from each lease before commingling be waived as the ownership of the leases is common throughout and production from only one zone is involved.

A plat of our present and proposed lease facilities is attached.

We propose to salvage the Federal E Lease tank battery and flow line. The flow line from Federal E #2 will then be routed to the treater at Federal F tank battery and connected in such manner as to allow individual well testing.

Attention: Mr. John M. Tyler
District Production Supt.

Reference: Mercury Oil Company

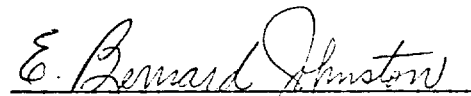

Dear Mr. Tyler:

Mr. Ralph A. Shugart of Artesia, New Mexico, who owns stock in the Mercury Oil Company, and who has always looked after its business passed away September 1, 1967. I have been designated by the Board of Directors to look after the affairs of the Mercury Oil Company.

In reply to your letter of October 12, wanting to know whether or not the Mercury would object to the co-mingling of the income from Federal E Lease and Federal ~~F~~ Lease, Shugart Pool, Lea County, New Mexico, it makes no difference to the Mercury as their overriding royalty is the same on both tracts.

Very truly yours,

JOHNSTON, WILSON & ENGLAND
