Dear Mr. Hill:

We have received your commingling application of April 7, 2000, wherein you have requested our approval to include the Texmack 2 State Com Well No. 2 into the Texmack 11 Federal Central Tank Battery.

Since it appears that there will be no loss of revenue to the State of New Mexico's beneficiaries as a result of your proposed operation, your request is hereby approved. Our approval is given with the understanding that the Commissioner of Public Lands reserves the right to amend or withdraw his approval, should this operation prove to be unprofitable to the state at any time in the future. Also, our approval is subject to like approval by the New Mexico Oil Conservation Division and the Bureau of Land Management.

Your \$30.00 filing fee has been received.

If you have any questions or if we may be of further help, please contact Pete Martinez at (505) 827-5791.

Very truly yours,

Dear Ms. Haynie:

We are in receipt of your letter of August 27, 2002. Your letter requests our approval to add the Texmack 36 State # 1, Fren Morrow (96663) pool production to the existing, OCD Commingling Order CTB-474.

It is our understanding that the production will be allocated by separately metering the production from each lease prior to commingling. The commingled production will be stored in a common tank battery facility located in the NE/4NW/4 of Section 11, Township 17 South, Range 31 East.

Since it appears that all the New Mexico Oil Conservation Division's rules and regulations have been complied with, and there will be no loss of revenue to the State of New Mexico as a result of your proposed operation, your request is hereby approved. Our approval is subject to like approval by the New Mexico Oil Conservation Division.

Please submit a copy of the BLM and New Mexico Oil Conservation Division's approval

Your \$30.00 dollar filing fee has been received.
